

Red Earth is Australia's Gullin & Company's 'flagship' offering. An exceptional release which extols all the virtues and the very finest characteristics of Australian wine. As Australians would say, 'this is a beauty.'

Two reds, a Shiraz, and a Cabernet are now available. A white is also envisaged for the Red Earth label.

The Red Earth Cabernet Sauvignon originates in the Coonawarra region of South Australia the foremost Cabernet Sauvignon producing region in Australia.

The red Earth Shiraz is from the McLaren Vale region

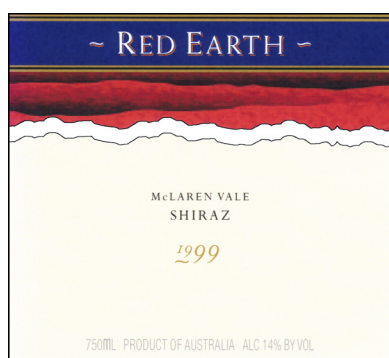

### 1999 COONAWARRA CABERNET SAUVIGNON

*Suggested Retail: US\$22*

The 1999 vintage was made and crafted by Stephen Walker and John Innes, winemaker of the Rymill Estate. It is an outstanding Coonawarra wine; bright ruby in color with purple tinges and has a bouquet of exceptionally well-integrated character, showing refined, warm aromas of vanilla oak perfectly melded with complex undertones of berry and stone fruits.

The palate is one of subtle, yet concentrated layers of flavor enhanced by soft tannins. The finely balanced mid palate leads to a long lingering finish the hallmark of the very finest Coonawarra reds.

This wine can be enjoyed today, but will amply reward those who choose to cellar for many years to come.

### 1999 MCLAREN VALE SHIRAZ

*Suggested Retail: US\$25*

This wine is now ready to bottle and will have the characteristics expected from world class Shiraz from this area, namely deep color powerful fruit succulence, much mouth softness and great depth of complexity.
